StatMod2021: Statistical Modeling with Applications

Laboratory of Mathematics Raphaël Salem, University of Rouen-Normandy, France
"Gheorghe Mihoc-Caius Iacob" Institute of Mathematical Statistics and Applied Mathematics, Romania
&
Laboratory of Mathematics Nicolas Oresme, University of Caen-Normandy, France

December 3-4, 2021

StatMod2021.org

Chairs

Vlad Stefan BARBU (LMRS, CRNS-Univ. of Rouen-Normandy, France)

Christophe CHESNEAU (LMNO, CNRS-Univ. of Caen-Normandy, France)

Vasile PREDA (ISMMA & "Costin C. Kiritescu" National Institute of Economic Research & Univ. of Bucharest, Romania)

Scientific committee

Mitra FOULARIDAD (Univ. Aix Marseille & École Centrale de Marseille, France)

Alex KARAGRIGORIOU (Univ. of the Aegean, Greece)

Valentin PATILEA (ENSAI Rennes & CREST, France)

Serguei PERGAMENCHTCHIKOV (LMRS, France)

Gheorghiță ZBĂGANU (ISMMA, Romania)

Organizing committee

Jean-Yves BRUA (LMRS, France)

Silvia DEDU (Bucharest Univ. of Economic Studies, Romania)

Thomas GKELSINIS (LMRS, France)

Stelian ION (ISMMA, Romania)

Emmanouil-Nektarios KALLIGERIS (Univ. of the Aegean, Greece)

Merlin KELLER (EDF R&D, France)

Andreas MAKRIDES (Univ. of Uclan, Cyprus & Univ. of the Aegean, Greece)

Gabriela MARINOSCHI (ISMMA & Romanian Academy, Romania)

Nicolas VERGNE (LMRS, France)

Topics

Stochastic processes

Markov and (hidden) semi-Markov processes

Mixture models

Statistics for dependent random variables

Entropy and divergence measures

Statistical methods and applications

Goodness-of-fit tests

Mathematical reliability

Functional data analysis

Stochastic ordering
